Harper, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Whats an explosive child? A child who responds to routine problems with extreme frustration-crying, screaming, swearing, kicking, hitting, biting, spitting, destroying property, and worse. A child whose frequent, severe outbursts leave his or her parents feeling frustrated, scared, worried, and desperate for help. Most of these parents have tried everything-reasoning, explaining, punishing, sticker charts, therapy, medication-but to no avail. They cant figure out why their child acts the way he or she does; they wonder why the strategies that work for other kids dont work for theirs; and they dont know what to do instead. Dr. Ross Greene, a distinguished clinician and pioneer in the treatment of kids with social, emotional, and behavioral challenges, has worked with thousands of explosive children, and he has good news: these kids arent attention-seeking, manipulative, or unmotivated, and their parents arent passive, permissive pushovers. Rather, explosive kids are lacking some crucial skills in the domains of flexibility/adaptability, frustration tolerance, and problem solving, and they require a different approach to parenting. Throughout this compassionate, insightful, and practical book, Dr. Greene provides a new conceptual framework for understanding their difficulties, based on research in the neurosciences. He explains why traditional parenting and treatment often dont work with these children, and he describes what to do instead. Instead of relying on rewarding and punishing, Dr. Greenes Collaborative Problem Solving model promotes working with explosive children to solve the problems that precipitate explosive episodes, and teaching these kids the skills they lack.
