

Adventures in Modeling: Exploring Complex, Dynamic Systems with StarLogo

Filesize: 7.18 MB

Reviews

This pdf is so gripping and exciting. I actually have go through and that i am confident that i will going to read once again once more in the future. I discovered this publication from my dad and i advised this ebook to discover.

(Mr. Elwin McGlynn Jr.)

ADVENTURES IN MODELING: EXPLORING COMPLEX, DYNAMIC SYSTEMS WITH STARLOGO

To get **Adventures in Modeling: Exploring Complex, Dynamic Systems with StarLogo** PDF, please click the hyperlink under and save the document or have accessibility to other information that are relevant to **ADVENTURES IN MODELING: EXPLORING COMPLEX, DYNAMIC SYSTEMS WITH STARLOGO** book.

Teachers' College Press. Mixed media product. Book Condition: new. BRAND NEW, **Adventures in Modeling: Exploring Complex, Dynamic Systems with StarLogo**, Vanessa Stevens Colella, Eric Klopfer, Michel Resnick, Have you ever wondered how birds flock or forest fires spread? For thousands of years people - from DaVinci to Einstein - have created models to help them better understand patterns and processes in the world around them. Computers make it easier for novices to build and explore their own models - and learn new scientific ideas in the process. **Adventures in Modeling** introduces you and your students to designing, creating, and investigating models in StarLogo. Computer modeling, the use of computer programs to simulate complex, dynamic systems or events (like population growth or environmental conservation), is a powerful learning tool that is finding a rapidly growing audience among teachers in middle and high school science and mathematics classes, especially since the NCTM Standards 2000 advocates its use in the curriculum. This valuable resource: Provides educators with a rich and accessible introduction to the use of computer modeling in the classroom using the popular StarLogo computer programming language; Takes readers step-by-step through the process of using computer models to simulate complex relationships; Shows how and why computer modeling can lead to powerful and enduring learning outcomes for all students. Provides explicit links between various state and national math and science content standards and the use of computer models, to enable educators to see how this work may enhance standards-based instruction; As computer use gains in currency and value in the middle and high school classroom, **Adventures in Modeling** will give teachers and students a very effective way to build curiosity and boost learning outcomes in a standards-based curriculum.
